## FlowGuard for the Mercury Quick Attack

### *Protection for the crew and the pump*

Introducing the FlowGuard for the Mercury Quick Attack portable monitor. The FlowGuard is designed to reduce hazard risk for the crew and give them confidence while firefighting.

To learn more about the Mercury FlowGuard and access all the launch tool kit items, login to My Account and click on the Product Update section.

## How FlowGuard Works

When the hose or the monitor experiences excessive, potentially hazardous movement while flowing, the Mercury FlowGuard will automatically reduce water flow.

### **FlowGuard Details**

- **Water Flow Reduction**
  - Reduces to about 1/3 of the flow. Does not reduce all the flow.
  - No water hammer of the pump
- **Fast and Easy to Reset**
  - Close monitor valve, turn reset button a ¼ turn, put hose back in line, open monitor valve and start flowing
- **Lightweight and Compact with a Slim Profile**
  - Weighing 4.6 pounds (2 kg)
  - 9.125" inches (231 mm) long
- **Low Friction Loss**
  - 8 psi at 500 gpm (1900 lpm) total friction loss at 500 gpm (1900 lpm) is 14 psi (1 bar) with FlowGuard
- **Optional Add-on**
  - Can be retrofitted to both new and previous Mercury Quick Attack monitors

### **Mercury Quick Attack LE**

- Hits low at 10°
- Improved reach up to 250 feet (76 m) at 100 psi (10 bar) when paired with the NEW Mercury Adjustable Nozzle (Style 4446). It's the only fog nozzle with the reach of a smooth bore
- Meets NFPA 1964 and EN-15767-1
- Compact size & weighing only 15 lbs (6.8 kg) for quick deployment
- Easy open/close valve
- Strap attached with bag for easy stowing
- New black hard coat

Patent Pending: US 2019 / 0262642 A1

## Distributor Reference Materials
