Vetter Safety Cushions - SC 50 & SC 80

The **Vetter Safety Cushion SC 50 and SC 80** offer a cutting-edge solution for high-risk rescues in metro or urban environments. Designed for situations where ladder trucks are unreachable or inaccessible, Vetter Safety Cushions combines innovative design with proven reliability to meet the challenges of emergency rescue operations.

Fast, Safe, and Reliable, for Anytime or Anywhere.

Rapid Deployment

Powered by compressed air cylinders for dependable performance without the need for fans. Inflates in 30 seconds (SC 50) or 60 seconds (SC 80).

Minimal Manpower

Requires only 2 (SC 50) or 4 operators (SC 80) for setup and maneuvering, reducing the burden on rescue teams.

Compact & Portable

Lightweight design and small folded size make storing, transporting, and positioning in hard-to-reach locations easy.

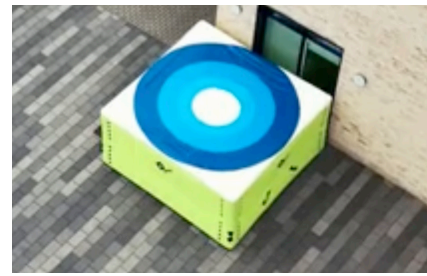

A Trusted IDEX
Fire & Safety Brand

Designed to Save Lives

Neon-yellow side walls make Vetter Safety Cushions even more visible at night or in poor weather conditions.

The blue circle landing zone design, developed and verified in collaboration with psychologists, reduces the paralyzing fear of jumping.

Rapid recovery times of 10 seconds (SC 50) and 20 seconds (SC 80) ensure safety for additional jumpers.

The outer cover material is flame-resistant and tear-proof to protect jumpers and rescue personnel.

Feature	SC 50	SC 80
Jump Height Maximum	Up to 52 ft.	Up to 82 ft.
Inflation Time (approx.)	30 seconds	60 seconds
