

PB-1009 FoamLogix

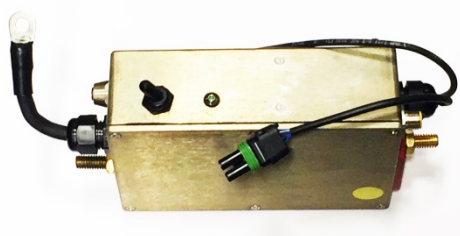

FoamLogix - Analog distribution box obsolescence

March 31, 2017

Dear Valued Customer,

The Analog Distribution Box (part numbers 200-2501-50-0 and 200-2501-51-0) for older FoamLogix systems will soon be obsoleted. If a fielded system requires a replacement analog distribution box then an upgrade kit should be requested (see part numbers in the table below).

This upgrade kit is the same cost as the obsolete analog distribution box and it updates your foam system to the latest fully-supported technologies including open-loop failsafe mode.

Analog Distribution Box

200-2501-50-0 (12V)
200-2501-51-0 (24V)

New Smart Motor Driver upgrade kit

Single Tank	Dual Tank
550-00020-001	550-00024-001
550-00020-002	550-00024-002
550-00020-003	550-00024-003
550-00020-004	550-00024-004

There are eight kits available. The kits include a new base plate, hardware, Smart Motor Driver, power harness, display harness (lengths 10' x 14' or 15' x 19'), and will either come with or without the FoamLogix display. *Note: If your current display's part number is 610-00028 then you can select a kit labeled "without display" and continue to your existing FoamLogix display.*

	Without display	With display
10' x 14' harness, single tank	550-00020-003	550-00020-001
15' x 19' harness, single tank	550-00020-004	550-00020-002
10' x 14' harness, dual tank	550-00024-003	550-00024-001
15' x 19' harness, dual tank	550-00024-004	550-00024-002

Thank you for your continued support of Hale Products, Inc. If you have any further questions or concerns, please feel free to contact our customer service center at 1-800-533-3569.

Sincerely,

Jeremy Foxx
