

# SmartATP<sup>®</sup>

Around-the-Pump Foam System

# SmartATP<sup>®</sup>

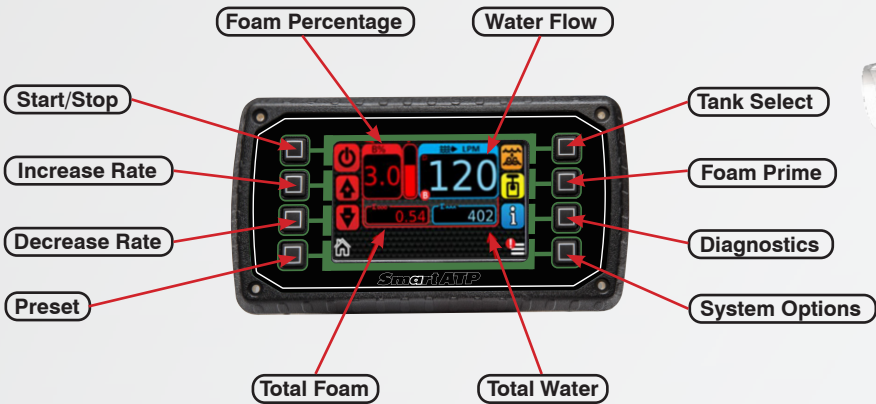

## Automated Around-the-Pump Foam System

**SmartATP** is an intelligent, automated around-the-pump foam system that delivers high-volume, precise foam for every fire situation.

Eliminating the problems with traditional manual systems, the **SmartATP** automatically regulates the foam ratio control valve, reducing the opportunity for operator error and wasted foam.

**SmartATP's** intelligent controls and high-volume foam are features usually found on much more expensive foam systems, at a fraction of the cost.

### EASY ACCESS AND ON-SCREEN NOTIFICATION MESSAGING

- Easily recognized icons
- Notification messages relay critical information, diagnostics and system errors
- Pressure warnings
- Foam tank level
- Intake and discharge pressures
- Real-time and total used display
- Multi-language capable

### HIGH PERFORMANCE, COST-EFFECTIVE SOLUTION

Compared to other systems with similar high flow rates, SmartATP has increased accuracy that can conserve up to 30 gpm of foam per minute

60 MINUTES OF RUN-TIME	FOAM FLOW							
	Hale SmartATP				Manual ATP			
	FOAM	FOAM	FOAM		FOAM	FOAM	FOAM	FOAM
	FOAM	FOAM	FOAM		FOAM	FOAM	FOAM	

## RUGGED, PRECISE AND RELIABLE

One-touch push button proportioning

Easy step-by-step on-screen setup and calibration instructions

Unparalleled diagnostics

Integrated tank level reads feedback from Class1 ITL

Real time operational feedback

Date logging available via USB download or on the display for the last operation

### About Hale Products

For more than 100 years, Hale Products has offered an extensive line of fire suppression solutions to fire and rescue crews throughout the world.

Hale provides quality fire equipment, including truck-mounted and portable fire pumps, foam and compressed air foam systems, pump modules and pump kits, with a legacy of exceptional workmanship, advanced technology and innovation.

### About IDEX Corp

The IDEX Fire & Safety businesses are a group of diverse specialty manufacturers of highly-engineered solutions that solve mission critical problems the fire & safety, fire suppression, rescue and municipal markets.

Our fire suppression businesses manufacture truck-mounted and portable fire pumps, stainless steel valves, foam and compressed air foam systems, pump modules and pump kits, electronic controls and information systems, conventional and networked electrical systems, and mechanical components for the fire, rescue and specialty vehicle markets.
